Celebrate Sixtieth Wedding Anniversary.

On Monday, March 28th, Mr. and Mrs. A. K. Franklin, a well known and respected couple of Didsbury, celebrated their sixtieth wedding anniversary. Dinner, commemorating the event was served at the home of their daughter, Mrs. A. A. Stauffer.

Mr. Franklin was born in Ohio in 1847. He served during the Civil War in the 11th Illinois Cavalry, and as far as is known, is the only surviving member of either his regiment or his family. In 1868 he moved to Nebraska.

Mrs. Franklin, nee Sarah Dunn, was born in Kentucky, in August, 1848. Her family moved to Nebraska in 1865, where she and Mr. Franklin were married in 1872.

After their marriage they moved to Kansas where they lived until 1904 when they came to Alberta. After spending three years on a farm in the Cremona district, they moved to Didsbury and have resided here since.

They have three children living, Sam, E. and Mrs. A. A. Stauffer, of Didsbury, and Chas. W. of Cremona. They have also eleven grandchildren and seven great-grandchildren.

Mr. and Mrs. Franklin are both enjoying good health and their host of friends wish them continued health and many more years of happiness.

Gets Six Months' Gaol Sentence

Guy Hiltz was sentenced to six months' at Fort Saskatchewan when found guilty on a charge of theft by Magistrate Phillips last Thursday.

Defendant was charged with stealing turkeys and other articles from the farm of Jas. McDougall last fall. Defendant, together with his brother left the district and was arrested at Penttison, B.C. and brought here for trial. The brother who was implicated in the theft was not to be found.

M.B.C. Annual Conference & Bible School Commencement

The annual conference of the M.B.C. Church was held last week in connection with the commencement activities of the Mountain View Bible School.

The conference was dominated by a spirit of enthusiasm and optimism from the very beginning of the sessions. A larger number of guests than usual were in attendance. The reports from the various fields showed growth and interest, and all felt that the past year had been one of marked advance in many ways. Rev. C. J. Hallman, former pastor of the Didsbury M.B.C. Church was elected Presiding Elder of the Canadian Northwest Conference, Rev. V. K. Snyder being stationed as pastor at Didsbury for the ensuing year.

Rev. H. J. Wood, of the Evangelical Church, delivered the inaugural sermon on Sunday afternoon to a large and appreciative audience.

On Tuesday evening the commencement address was delivered by Rev. Lattie, of Calgary, after which seven graduates received their diplomas, and Mountain View Bible School closed the sixth and most successful year, thus far, in its history.

Will Raise Pheasants.

The Fish & Game Association are again interesting themselves in the raising of pheasants for the purpose of stocking the district with these birds. There are also several farmers in the district who are raising pheasants for the same purpose.

A number of birds were purchased last fall, and the following have donated the sum of 50 cents each towards the purchase of birds for breeding purposes this spring:

J. H. Elmer, H. G. Lee, Geo. Julien, Fred Moyle, C. S. Mortimer, A. L. McInnes, J. S. McEld, Thos. Johnson, S. Willis, G. Watson, W. McFarquhar, A. G. Studer, H. C. Speelman, I. Weber, Jim Phillips, K. Kirby, W. D. Spence.

Mr. Geo. Julien will have charge of the birds this summer.

LOCAL & GENERAL

Miss Aleda Huget is spending the holidays with her parents here.

Miss Margaret Ranton, of Lacombe, spent the holiday at her home here.

Mr. Bill Sutherland, of Ponoka is visiting friends here this week.

Miss Winnie Studer spent her Easter holidays at Banff.

Mr. Frank Raymond, of Lacombe was a visitor at the Ranton home for the week-end.

Mr. and Mrs. Grant Parke, of Edmonton spent the week-end visiting friends here.

Miss Beatrice Kendrick, of Ponoka, spent Easter with her parents here.

Mr. Gordon Ford, of Burnt Stick Lake spent the holiday with his brothers, Eddie, Milt, and Ross.

Mrs. Alexander, of Calgary was a visitor at the McCoy home last week-end.

Mr. Gordon Brubaker, of Gadsby was visiting his parents here over the holidays.

Mr. Dan Campbell, of Calgary was a visitor at the Studer home during the holiday.

Mrs. Royds and family are moving into the Godfrey Carlson residence this week.

Messrs. Frank Palmer and Earl Roberts, of Elnora visited Mr. H. O. Tomlin on Good Friday.

Mr. and Mrs. Wayne Stauffer, of the former's parents, Mr. and Mrs. Albert Stauffer.

The Easter bazaar held in the Opera House by the auspices of United Church Ladies Aid was very successful and the ladies were delighted with the support they received.

Mr. and Mrs. Orville Geiger, of Calgary visited at the home of the former's parents, Mr. and Mrs. Dan Geiger over the week-end. Mr. Scotty Lee was also a visitor at the Geiger home.

The rendering of the Easter oratorio, "The Crucifixion" by the members of Westcott United Church on Good Friday evening in the United Church was much appreciated by all those who attended. Much credit is due Mr. R. Webster, conductor of the choir, who was largely responsible for the splendid manner in which the oratorio was presented.

Powerful lights that guided aerial pilots between the larger cities of the west are soon to disappear, and the carefully illuminated emergency landing lights scattered over the prairie route will cease to glow. Among these beacons to be dismantled are Leduc, Red Deer, Maxton, and Carstairs. The equipment will be stored. It has been officially stated that the last annual run will be made on March 31st.

Obituary.

RADFORD.

In the death of Mr. Charley Radford, who died last Thursday, the district north-west of Didsbury lost one of its pioneer residents.

Mr. Radford had been in ill health for several weeks, and suffered a stroke on Monday of last week from which he never recovered.

The deceased, who was 69 years of age, was born in Illinois and moved to Nebraska and lived there until 1900 when he moved to Alberta. He homesteaded about eight miles north-west of Didsbury and has resided there ever since. In the early days he was much interested in the development of the district and was one of the first members of the council of the old Local Improvement District, and served on that council for several years.

Three sons and two daughters survive to mourn his loss. Bert, of Didsbury; Preston and Charley, of Olds; Mrs. Walter Bellamy, of Cremona; and Margaret, of Didsbury. There are also eleven grandchildren.

The funeral service was held at the Presbyterian Church, Olds, Rev. C. E. Fisher officiating. The remains were interred in the Olds cemetery.

COWMAN.

Funeral services for Frederick Cowman, pioneer cattleman of the Carstairs district, was held in the United church at Carstairs, Tuesday afternoon, Rev. A. D. Curry officiating and burial followed in the Carstairs cemetery.

Deceased was born in Yorkshire, England, on November 17, 1853, and died in his 79th year at his ranch west of Carstairs Sunday. He had been ill for several weeks. He was predeceased by his wife many years ago. He is survived by a

WEDDINGS

PURDY—KERCHER.

A pretty wedding took place on Saturday evening, March 26, at the home of Mr. and Mrs. Ed. Kercher, when their daughter Margaret became the bride of Mr. William Purdy, of Sarina, Ontario.

The bride looked beautiful in a gown of white silk crepe, carrying a bouquet of lovely Easter lilies. The couple were attended by Miss Ruby Kercher and Mr. Lester Stauffer. The ceremony was performed by Rev. C. J. Hallman in the presence of relatives and a few friends. After the ceremony a delicious supper was served.

The happy couple will motor to Sarina, Ontario, where they expect to spend the summer. Our best wishes go with Mr. and Mrs. Purdy.

WEEKLY SERMONETTE

"Don't say trying, remember its usually the last key on the ring that opens the lock."

Coming Events

A meeting of the U.F.A. Didsbury Local will be held in the old United Church building on Thursday, April 7th. All members are requested to be present, as this will be the last meeting before seceding.

"The Joyesters," of Cremona, will present a 3 act comedy "June Time" & a 1 act farce "A Nice Quiet Evening" Friday April 8th. Dance to follow the show.

daughter living in the district and a second daughter, Mrs. Bohannon, of Kindersley, Sask.

Union Oils and Greases

Our Stock Has Now Arrived and
We Can Supply Your Needs.

"Motorite," A purely Western oil. Noted for its soft carbon qualities. Handled in handy 5-gallon steel containers or 12-gallon drums. Also stocked in bulk in weights: S.A.E. 20-30-40-50.

"Motoreze," A blended oil comprised of Western and Pure Pennsylvania Oils. A wonderful oil at a surprisingly low cost. In weights S.A.E. 20-30-40-50.

Union Motor Oils are refined by a secret process—They are electrically checked, thus eliminating the human equation and chance of error. Acid free. Keep the engine cooler. Lubricate efficiently. And are SUPER-OILY.

Are We Over-Governed?

Considering, in this concluding article, some of the broader aspects of the above subject which we have been discussing in this series of articles, it is self-evident that any conclusion to be reached must be based upon the effect upon (a) efficiency; (b) economy; (c) the individual taxpayer. It might be possible to achieve a substantial reduction in Provincial expenditures by imposing upon the municipalities the obligation of providing certain services, as, for example, the making of smaller grants for schools or municipal roads, but this would simply mean increasing the burden to be borne by the individual taxpayer in his municipality in exact ratio to the lessening of that burden upon the same individual in his capacity as a Provincial taxpayer. Thus, there would be no gain. Or a lessening of the weight of taxation imposed by the Province might be effected by transferring certain obligations to the Dominion, as, for example, Old Age Pensions. But, again, there would be no gain because what the individual did not pay to the Province in taxes he would have to pay in increased Federal taxes.

Any gain, therefore, must be the result, not of a shifting of the burden from one shoulder to another, but the entire elimination of the burden. This at once brings us face to face with the real problem. That is, are the people—that is the taxpayers,—prepared to forego services and conveniences now provided by the State through taxation, and do without them altogether, or provide them individually for themselves where possible, in order that taxes may be reduced? Are they ready and willing to do without services and conveniences they expect will be provided in days to come, and if without them until the country is more thickly populated, better developed, and producing a substantially larger volume of new wealth annually?

Reduction in governmental machinery, whether it be accomplished through the merging of small school districts into larger districts, combining several small municipalities into one, or uniting the three prairie provinces into one large province, must result in some inconvenience to the people now served by the smaller units. If the three provinces were made one province, the Dominion Treasury would be saved the payment of two of the three grants now made to the Provinces for "Government and Legislation." As Federal taxpayers we would save this money; as Western Provincial taxpayers we would lose it, but if the cost of Provincial Government was reduced as a result, it would be money saved.

While it is open to serious question whether union of the three Western Provinces is now a practical proposition, especially when a comparison is made between the size of our Canadian provinces (except the three Maritimes), with the much smaller states across the line, or with such countries as Belgium, Holland, Denmark, Sweden, Norway, Italy, or even the larger European countries, except Russia, and having in mind the ultimate large populations of these three provinces, it is quite practical to effect substantial savings through joint Provincial action, or in conjunction with the Dominion.

Such action is already being taken. Some years ago Saskatchewan disbanded its own Provincial Police Force and made a contract with the Dominion Government whereby the Mounted Police now perform police duties for the Province, thus effecting a large saving. Now Alberta and Manitoba are adopting the same policy. The need for a School for the Blind in the West is realized, but one such school will serve the needs of all three Provinces for many years to come; there is no necessity for erecting and maintaining three such schools, and, fortunately, this is recognized. We repeat, what was stated in a previous article, that, in our opinion, one Court of Appeal for the three provinces could handle all appeal cases, and it would appear the part of wisdom for the three Governments and the Dominion to give consideration to effecting such an economy.

These are but examples where inconveniences to the public would be small while the savings would be large, and are cited as indicating the general policy which, in the interests of the taxpayers, should be followed.

But to achieve even these reforms, and to inaugurate such policies for future development and extension, will necessitate a larger participation on the part of all, and the elimination of those local jealousies and sectional ambitions, all those purely selfish considerations which now operate to prevent many economies in governmental administration. All such considerations must be ruthlessly set aside for the common good of all taxpayers. If they are not it will be well nigh hopeless to effect necessary economies, or to prevent an even more serious condition of being over-governed than at present exists.

Governments are not so much to blame as are the people themselves, because Governments have acted in the past, and will act in the future, as the people desire, and if the people are actuated by petty, local, selfish considerations, rather than by a large and fine consideration for the welfare of the whole, their views will be reflected in future governmental action. The people run and will get what they demand, and as, in the final analysis, they must do the paying through the medium of taxation, it is up to them to decide just what they want.

A rare old grandfather clock, the work of Daniel Quare, a famous London clockmaker in the time of William III, whose owner had not thought it to be worth more than £20, was sold for £125 in London.

Aerial photographs have shown up the plans of an old Irish town which figures in traditions but could not be located by ground exploration.

Nerves A Complete Wreck Sat Up Half The Night

Price 50c a box

Mrs. John Rose, Park Lake, Ont., writes: "I was troubled so much with my nerves I was a complete wreck. I could not do my work, and would have to sit up half the night on account of not being able to sleep. One day a friend recommended Milburn's Heart and Nerve Pills. I used one box and was again able to sleep, and by the time I had taken six boxes I was as well as ever."

Sold at all drug and general stores, or mailed direct on receipt of price by The F. Milburn Co., Ltd., Montreal, Que.

Industrial Brandon

Manitoba City Serves a Rural Population of Some 200,000

Mr. W. Burton Hurd, Professor of Economics at Brandon College, points out in a general industrial report that Brandon serves a rural population of about 200,000 in Western Manitoba and Eastern Saskatchewan, aided by a network of good roads, three main railway lines and 26 branch lines. The value of Brandon's manufactured goods exceeds \$1,250,000 annually. These include 16 different kinds of vegetable products and 19 from iron and steel. Brandon's population, as at April, 1931, was 17,775.

Gas in the Stomach Is Dangerous

Recommends Daily Use Of Eburated Magnesia In Powder or Tablets Caused By Acid Indigestion

Gas in the stomach accompanied by a flatulent odor, is one of the most common evidences of the presence of excessive fermentation in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because they attack and irritate the delicate lining of the stomach, leading to gastritis accompanied by serious stomach ailments. Food is not properly digested, the distressing gas which distends the stomach, and hinders the normal functions of the vital internal organs, often affects the liver. It is the worst of evils to ingest such a serious condition. It is best, with ordinary digestive aids which have no controlling effect on the stomach, to ingest such as our Eburated Magnesia. This powerful or four tablets in water night before, and the next morning the first wind and flatulent odor of the belly, and prevent its formation and then, if necessary, use one or two Eburated Magnesia in powder or tablets. In form—new in liquid or tablet form—this is the stomach, the best of all to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with an ease and freedom.

A Promising Industry

Hundred Acres Of Peas Noted Manitoba Farmer \$1,000

One of Western Canada's youngest but most promising industries was closed this season on February 11, when a final shipment of two cars of dried field peas from St. George's, Man., were shipped to an eastern soap manufacturing concern.

The Pioneer Growers at St. George's realized a yield of 40 bushels to the acre with an aggregate yield of 4,000 bushels, selling at a cash price of one dollar a bushel F.O.B. cars.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will provide a very valuable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Alberta Sheep

Sheep Population Of Western Provinces Placed At 529,000

According to Dr. F. W. Gershaw, Member of Parliament for Medicine Hat, there are about 529,000 sheep in Alberta, the northern sections breeding on a smaller scale than the more southerly areas, where extensive ranching operations are carried out. As one man can herd 1,200 to 1,500 sheep, that number, or some multiple of it, constitutes an economic unit. The sheep population of the whole of Canada is about 1,000,000.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does reduce the sufferer to normal bodily trim and mental happiness.

Infinitely Better

A suburban gentleman who raised straight-ries invited a number of boys in the neighborhood to a strawberry party. When they had all partaken of the luscious berries, he said to them: "Now want that better than stealing into my garden and helping yourselves?"

"Oh, yes, sir," chorused the boys. "And why say it better?" he asked, desiring of pointing the moral. "Because," said a chubby faced youngster, "we shouldn't have had any sugar and cream with 'em."

A Northern Romance

Esquimaux Couple Escape From Native Village In Furious Blizzard

People who believe the thrill of romance runs more wildly through the blood of the people of warm southern climates should listen to the story of Sholeck, full-blooded young Eskimo hunter, who arrived at Churchill the other day with his bride from 480 miles north.

The young couple, who were united at Churchill by an Eskimo chief, fled from their native village far along the barren coast of Hudson Bay by dog team in the teeth of the worst blizzards that have swept the northern Arctic tundra for years. The disapproval of the father of the young bride and his marriage, as chief of the tribe, to forbid the marriage, did not daunt the two.

Waiting until they were positive no one was watching them, and that their trail could not be picked up in the snow, they set off on the long trip down the coast to Churchill, where another Eskimo chief would marry them.

They arrived after spending two weeks in travel. Food was running low and two of the huskies were being carried in the sleigh with the nice-looking bride. The story of the romantic elopement was told to whites through an interpreter. The pair do not plan to return to their former home, but will leave shortly for points farther inland.

Persian Balin is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A perfect toilet requisite. Invaluable to all women who care for elegance and distinction.

Dust free air does not exist anywhere in nature.

Only one woman is affected by color blindness to each ten men.

Cuba exports its finest sugar crop will be over 3,000,000 tons.

When you CAN'T QUIT

A HEADACHE is often the sign of fatigue. When temples throb it's time to rest. If you can't stop work, stop the pain. Aspirin will do it, every time. Take two or three tablets, a swallow of water, and carry-on in perfect comfort. Don't work with nerves on edge or try to do too much. Aspirin will ease the pain that Aspirin will end in a jiffy! Aspirin can do you no harm; just be sure that it is Aspirin with Bayer on each tablet. Beware of cheap imitations. Follow proven directions for headaches,

colds and sore throat; neuralgia, neuritis, etc. Carry these tablets with you, and be prepared. To block a sudden rain on the street, or quiet a grumbling tooth at the office, relieve a headache in the theatre, spare you a sleepless night when nerves are "jumpy."

And no modern girl needs "time out" for the time of month! Your little box of Aspirin tablets is sure relief for all such pains.

Take Aspirin for any ache or pain, and take enough to end it. It can't harm you. At drug stores everywhere. Made in Canada.

Found In Many Parts Of Canada, Limestone Regarded by Geologists As World's Most Useful Rock

Limestone, which is obtainable in more than 1,500 localities in Canada, much of it of fine quality, is regarded by geologists as the world's most useful rock. It is of immense value to man and to all living creatures in a variety of different ways. In fact, there is scarcely a phase of human life in which limestone does not play a part. Calcium carbonate, or carbonate of lime, the principal constituent of limestone, is absolutely necessary for the growth of human beings and animals. It is obtained from eggs, milk, fruit, vegetables and other food products.

To the industrial life of the country limestone is indispensable. The annual production of Canadian limestone, according to the latest available figures is 12½ million tons, which, when made into its primary purposes, has a selling value of about \$34,000,000. This value is exceeded only by that of coal, copper and gold.

Limestone is used in great quantities in the form of crushed stone for highways, railway ballast and concrete aggregate. It is the principal raw material in the manufacture of Portland cement; and also in the manufacture of calcium cyanide and dynamite, which latter are the bases of many chemical products. The iron and steel industry, as at present constituted, could not exist if limestone were not available to free the iron from its ores. In the production of gold, silver and other metals, lime and limestone play important parts. Quantities of lime are used in tanning leather. Limestone is indispensable to the pulp and paper industry—every piece of paper is made by its aid. So, too, does the glass industry require limestone for most of its products—particularly for window glass. Limestone is essential to the manufacture of washing soda, baking soda and many other chemicals. Large quantities are used in the refining of sugar. The uses of lime for plaster, mortar and white-wash are generally known. When limestone is pulverized and mixed with limesed oil it is known as putty. Pulverized limestone is also used in the compounding of rubber for footwear and flooring. It is used in oil cloth and in cold-water paints. Some cigarette papers contain as much as 30 per cent. pulverized limestone. Limestone is a source of carbon dioxide gas which, when compressed into the solid state, forms the refrigerant known as dry-ice, now coming into wide use. A certain type of limestone when melted in a small ball steam and blown by high-pressure steam into nozzles of brass, yields a fluffy material known as rock wool—one of the most efficient insulating materials on the market.

Many other uses for limestone could be mentioned, for they number hundreds, but one of the most interesting and certainly the most spectacular use of limestone is its use as a building stone. Canadian limestone for building purposes is notably superior.

One Explanation

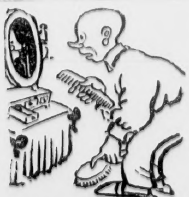

Teacher: "Why did Joseph's brother put him in the pit?"

Boy: "Because he had on a coat of many colors, sir."

Teacher: "What had that got to do with it?"

Boy: "Please, sir, if he'd had on a dress suit they would have put him in the stalls."

New Western Fur-Bearer

Furbearers Exhibited At Winnipeg At Annual Fitch Show

The fitch (or polecat) is now definitely on the list of Canada's domesticated furbearers, and Winnipeg is the first city in North America to stage an annual show—the recent exhibition of the Canadian Fitch Breeders' Association being the pioneer event of its kind on the continent. The animal is reported to be a native of Asia and Eastern Russia, but it thrives well in Manitoba, where climatic and other conditions are to its liking. Prize-winning fitch from the Edinburgh Exhibition and from the International Fur Show at the Crystal Palace were on view in Winnipeg.

By Annette

THIS LITTLE MODEL IS VERY CHARMING

Smart and in the newest feeling is this simple all-day type.

And you can't find anything easier or quicker to fashion.

The skirt, you will note, has the bias seaming, so entirely slimming, lending the figure graceful height and youthfulness.

The original carried out the chic idea of black and white in a soft cotton crepe.

Short woolsens are also suitable.

Size No. 842 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 16 requires 2½ yards of 39-inch material; with 2½ yard of 35-inch contrasting.

Spraying in the most important, the most colorful season in fashions. All the more reason why you should have an automatic guide, such as our new fashion magazine, to show you the way in design, colors, etc. Of course, there are styles for afternoon, for sports, for home wear, lingerie, children, etc.

Price 16 books 15 cents. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Farmers Should Advertise

Sale Of Products Might Be Stimulated By Co-Operative Action

Dr. G. I. Christie, President of the Ontario Agricultural College, who is a close student of agriculture in all its ramifications, and who is in close touch with the farmers all over the province, has provided some food for thought in his suggestion that the sale of farm products might be stimulated by some intelligent advertising.

"If it pays industry to take full page advertisements," says Dr. Christie, "someone should find a way in which newspapers and other advertising mediums can be utilized for the farmers, for it cannot be left to the individual farmer." It is a well recognized fact that co-operative buying and selling among the farmers, fruit growers, etc., has been exceptionally satisfactory, and striking example being the California orange growers. Their policy of co-operation in the marketing of their products, which included advertising on a very large scale, brought results far beyond their expectations, and others have followed in their footsteps.

What has been accomplished in California through co-operative effort that utilized to the utmost degree advertising to sell orange juice and oranges can be accomplished by the facilities afforded by newspaper farmers of this province in popularizing the products they have for sale.

This question is large enough and important enough to arrest the attention of every farmer. It must be admitted that one farmer or even a very small group of farmers cannot hope to accomplish much in this direction, but Dr. Christie is right when he points out the possibilities of intelligent advertising and farmers' organizations could do worse than investigate the chances that co-operative effort offers as a means of creating greater sales for farm products. —Owen Sound Sun-Times.

Empire Cabinet

Believe Move Would Be A Valuable Institution At Present Time

London newspapers have suggested an Empire cabinet, comprising a representative of each dominion and two or three British statesmen, would be a valuable institution at the present time.

The newspapers reached this conclusion in editorials which discussed the appointment of Rt. Hon. Stanley Melbourne Bruce, assistant treasurer of Australia, as "minister representing the commonwealth" at London, England.

Sir John Marriott, noted constitutional authority, in an interview said he hoped Mr. Bruce would remain a member of the Australian cabinet during his stay in London. He suggested the addition of Hon. G. Howard Ferguson, Canadian High Commissioner; Rt. Hon. J. G. Coates, Minister of Public Works for New Zealand; and General Jan Christian Smuts, leader of the opposition in the South African House of Assembly. To form the nucleus of a "real Imperial executive."

First Target Of Japanese

British soldiers shown detouring at the railroad station of Woosung Fort, on the outskirts of Shanghai. This fort was the first target of Japanese forces in the move for the occupation of Shanghai. Claiming that they were fired on from the fort, Japanese warships shelled the stronghold and silenced it. The British Tommies shown here are defending the International settlement.

Suggestion Now Advanced That Western Canada Will Soon Have Reached Wheat Growing Limit

That the prairie provinces are approaching much more closely than people suspect their peak point in wheat production and exports, was the feature of an address before the Royal Canadian Institute in Toronto recently by Dr. D. A. MacGibbon, Winnipeg. Member of the Board of Grain Commissioners. A possible maximum wheat crop in western Canada of between 670 and 700 million bushels was calculated.

Observing the rise of wheat production in Ontario and Quebec in pioneer days and the decline following this period, Dr. MacGibbon suggested that western Canada will pass through the same phases, production rising to a peak and which, with the passing of the pioneer, will gradually decline to a fairly fixed level.

He pointed out the almost uniform progress in acreage devoted to wheat during the last 25 years, concluding that a study of the facts gave no reason to suppose that the limits of wheat cultivation have yet been reached. In this respect Alberta, Dr. MacGibbon stated, only began to show promise as a wheat producing province in 1910. Saskatchewan produced widely fluctuating volumes from year to year, but with a steady advance in the acreage, while Manitoba in contrast had produced her largest crop of wheat in 1915 and a decline in her acreage in wheat has been under way for six or seven years.

Between 1910 and 1914, the speaker continued, 57 per cent. of the acreage devoted to field crops in Manitoba was planted to wheat while for the five years, 1926 to 1930 inclusive, the percentage shrunk to 37 per cent. with an average crop of about 49 million bushels. In contrast to Manitoba a study of the proportion of wheat lands to total land devoted to field crops in the three prairie provinces shows that between 1910 and 1914 the percentage was 57 per cent. devoted to wheat, and between 1926 and 1930 the percentage was 63 per cent.

These facts indicate, he continued, that any expansion in wheat acreage must take place in Alberta and Saskatchewan where pioneer settlement is still going forward and where price relationships of wheat to other farm crops have been, at least until recently, out of their normal alignment.

Probable limits of acreage for wheat production in these two provinces and the potential yield were then outlined. Believing it quite incorrect to assume that there are still vast areas of virgin soil to be taken up, Dr. MacGibbon pointed out that the Saskatchewan Commission on Immigration of 1930 examined the question of available lands and estimated that the remaining area of arable soil in that province could not exceed 12 million acres, and that

it would require many years to bring this land under cultivation. Assuming this figure correct and computing from Saskatchewan's record crop of 321 million bushels of wheat in 1928 from 46 million acres of occupied farm land, showed a probable maximum yield of 85 million bushels or 85 million additional from the 12 million acres yet to be added.

Present occupied farm lands in Alberta amount to 29 million acres. Recent surveys show there is an outside possibility of seven million acres capable of being used for wheat production in the Peace River country. Of this about 60 per cent., it is estimated, can be used for wheat production. Consequently the largest wheat crop in Alberta to date, namely 171 million bushels may, by the same rough methods applied to Saskatchewan, be raised by 40 million bushels, making a total for all the provinces of between 670 and 700 million bushels.

Factors in support of a larger figure than this were outlined by Dr. MacGibbon, among which were the use of fertilizers to increase yields, mechanized farming methods reducing areas needed for feed crops and reducing the land for wheat, price relationship favoring production of other cereals and increasing wheat, and the work of the plant breeder who may produce wheats capable of developing on soils now deemed submarginal. On the contrary Manitoba is on the downward trend, large areas in Saskatchewan and Alberta now used for wheat production do not produce wheat of the highest quality, and as these two provinces shrink out of the pioneer stage farmers will cease to devote these lands to wheat, but to mixed farming for which they are technically suitable.

After Alberta and Saskatchewan reach the point of maximum production there will be a considerable decline just as there has been in Manitoba, Ontario, Minnesota and elsewhere, Dr. MacGibbon concluded. Where the volume of production will be stabilized in wheat acreage depended upon at least two factors, the very large areas in each province which were better suited to the production of wheat than any other product and the very high quality of the wheat which is produced in these areas.

Canada's Part In Great War

No Official History Has Yet Been Published

"The Canadian Legion, of the British Empire Service League, is in daily receipt of inquiries from all over the country as to when Canada's official history of the Great War is to be published," said Major John S. Roper, M.C., K.C., president of the Legion at Ottawa.

Major Roper, commenting upon the publication of battalion war histories, declared that beyond one supplementary volume issued by the government several years ago, dealing with the Medical services, nothing had been written on the operations of the Canadian corps. Other countries had published voluminous accounts notably Great Britain and Australia, but on Canadian achievements in the great struggle Canada continued to preserve absolute silence.

Nearly two tons of copper coins were collected by Cambridge, England, students in a one-day drive for funds for ex-soldiers.

Lady: "I would like to see an evening dress that would suit me."

Salesman: "So would I, madam!"—Wahre Jakob, Berlin

Schools of Alberta Gain Attendance

Increase of 654 Shown Over Previous Years.

Enrolment of pupils in public and separate schools of Alberta during the year ending December 31st last totalled 168,730, an increase of 654 over the previous year, according to the annual report of the department of education.

Average monthly attendance in all schools was 89.99 per cent. of enrolment, an increase over the previous high mark which was 89.35.

Rapid increase in the demand for secondary education was indicated by an increase of 2,986 in the total of secondary school pupils.

In the year there were operating 3,346 school districts, representing an increase of 32 over the previous year.

A total of 96,300 schools operated for more than 160 days, while the previous year was 95.70.

U. S. Factories Move To Canada

Much attention is being paid by anti-administration American newspapers to the flight of American factories to Canada. A dispatch from Toronto stating that ten more big American concerns have decided to erect branches in the Dominion, is given wide publicity.

"America's sky-scraper tariff," one press great states, "is fast helping Canada in her ambition to become first among among the trading nations of the world." No mention is made of the influence of the Canadian tariff in attracting branches of American industries, nor of the prospect that Imperial conference agreements may make Canada a desirable site from which to engage in export business.

R.C.M.P. Take Charge Friday.

The actual transfer of the provincial police to the mounted police force will take place Friday.

Report that a large number of horses are to be brought into Calgary for use by the new R.C.M.P. force is without foundation, according to officials at Calgary headquarters. At a later date, however, constables will be sent from time to time to take a course of instruction according with the R.C.M.P. system.

The familiar bright scarlet tunics worn by the R.C.M.P. are expected to arrive in Calgary soon and will replace the blue tunics at present worn by the provincial police.

Relief from Eczema

D.D.D. is the Perfect Antiseptic
The only relief for eczema, chafed skin, pruritic eruptions, and other skin troubles is the pure medical cream D.D.D. It soothes, it penetrates the skin and soothes the itching. It is the only relief for eczema. It is the only relief for eczema. It is the only relief for eczema.

CHAMBERS' DRUG STORE

LOCAL & GENERAL

Ross and Gordon Ford are visiting in Calgary this week.

Miss Joyce Moyle is spending her holidays at her home here.

Mr. Gray Sharp, of the University of Alberta is spending the vacation with his parents here.

Mr. Duncan Campbell, of Calgary was a visitor at Mr. and Mrs. A. R. Kendrick's last week-end.

Miss Selma Dedels, of Edmonton visited with her parents last week-end.

Mr. Harry Campbell, of Sunnyslope was a business visitor in town on Tuesday.

Mr. and Mrs. W. Vanhorn, of Calgary were week-end visitors with Mr. and Mrs. Chris. Mack.

The Levi Evans auction sale, eight miles east of Didsbury has been postponed until Saturday, 2nd April.

Mr. C. Korschuh returned from Tacoma, Washington on Wednesday after attending the funeral of a cousin.

Lawrence Tibbett in "The Prodigal" at the movies next Thursday evening, April 7th. The most human and lovable talkie seen for a long time.

The old-time drama, "Ten Nights in a Bar Room," with Wm. Farnum and Thomas Santoli, at the Opera House Monday evening next.

Mr. Roger Barrett was in Calgary Tuesday attending a convention of Ford dealers, when the new model Ford was exhibited.

We have a fresh supply of scratch pads now ready. Especially useful for school, store or telephone. 2 for 5 cents.—Pioneer Office.

Mr. and Mrs. F. Reiffenstein had as guests on Easter Sunday, Mr. and Mrs. N. E. Hughes, Mr. and Mrs. B. Lind, Mr. S. M. Hughes, and Mr. J. Doran.

Mr. Noah Ely, of Alaska, who was a pioneer of Didsbury, and a former mayor and secretary of the town is visiting at the home of Mr. and Mrs. H. M. Reiber.

Mrs. Aldwinckle and Margaret, of Lacombe, and Mr. and Mrs. Miller and Ruth, of Blackfalds visited with Mr. and Mrs. J. Boorman this week.

The sermon-subject at Zion Evangelical Church Sunday morning will be "The After-presence." In the evening the pastor will conduct the monthly question box.

Here and There

A new railway record, and a different one, was established recently when John Caesar, called at the Vancouver office of the Canadian Pacific Railway for his jubilee pay cheque. Mr. Caesar has 60 years service to his credit.

Canada's gold production in September hit a new record, being 240,222 ounces, as compared with 225,630 produced in August and 178,291 ounces in September 1931. The Dominion has been a gold-producing country for more than 70 years.

And now the eyes of the world are focussed on that greatest of all travellers, Santa Claus, who seems to have weathered transportation and financial problems once more. Just a good old Christmas custom!

One can visualize thousands of pairs of skis being waxed, now that the snow is here to stay. Then it will be "All aboard" for Quebec, Banff, Field or Revelstoke, or anywhere where there is a real good hill.

And, speaking of Quebec, Jack Strathdee, who was on loan to Lucerne-in-Quebec last winter, is back at the Glacier Frontenac, Quebec, as winter sports' director, once more, with a lot of good ideas and a smart staff of instructors. Jack is well known throughout Canada. Incidentally he's a fine performer at the piano.

Pacific Coast ports, and indeed shipping circles throughout Canada, are mourning the passing of Captain James W. Troup, aged 76, a native of Portland, Ore., a pioneer in coast-wise shipping and for 36 years manager of the B.C. Coastal service of the Canadian Pacific Railway.

Sino-Japanese war reports are causing more geographers to be consulted than is popularly imagined. Chin Chow, for example is almost as entertaining in its many phases as was its namesake with the uretic. Chin's during the days of 1914-1918. Besides, it's the only war we've got.

Piano Tuning De Luxe—Gavin Spence and W. H. Norton, the old reliable will be in Didsbury about April 8th or 9th for their 24th year of service. "Nuff' sed." Leave orders at Pioneer Office.

"The Devil to Pay," a whimsical romance of a happy-go-lucky adventurer, is the picture offered at the Opera House tonight (Thursday) March 31st, features Ronald Colman. Also the final episode of "Phantom of the West."

Russell Berseht and Art. Reiber took part in the Central Alberta badminton tournament at Red Deer during the Easter holidays. Neither had any success in the singles, but they reached the finals in the men's doubles, being beaten by an Innisfail pair.

Mel Huget had a narrow escape while riding his motorcycle last Friday afternoon. When coming to the crossing he failed to see the approaching train and just missed it by inches. In his excitement, however, he hit the ditch after crossing the track, but escaped injury. Mel says it won't happen again.

The whist and dance parties given by the W. A. of St. Cyprian's Church are proving very popular and there was a large attendance at the party held at the home of Mrs. A. Bishop on Tuesday night. The prize-winners were: Mrs. Durrer, ladies 1st; Mrs. Booker, ladies 2nd; Mr. Tom Pratt, gent's 1st; Mr. C. Farrant, gent's 2nd. Mrs. E. K. Pratt was winner of the turkey given by Mrs. Bishop.

Back to Days of Real Acting in This Talkie

A welcome change from the 100 per cent all talking picture should be found in the new modernized version of "Ten Nights In A Barroom." Instead of the players standing in one spot and engaging in an endless flow of dialog, the players in "Ten Nights" set out to tell the story as in the good old days by way of effective acting.

There is a very sufficient amount of dialog in the picture, but it is logical and in keeping with the emotions and moods of the players, at no time do they speak jarring or unnecessary words.

The efforts of the producers of this motion picture so they state, was to present a picture different from the rest, one that would allow the audience to use its own imagination, instead of reciting the story to them.

How well they have succeeded is evidenced by the fact that "Ten Nights" is establishing box office records where ever shown. It is the attraction at the Didsbury Opera House next Monday night, 10.

THE UNREASONABLE HUSBAND (of a lady reader)

You say your den needs sweeping out.
Can I do it now? Oh Lor!
Do have a heart, my precious love,
You know my arm is sore;
That I swept the ice last evening
And all the night before,
And Wednesday night and Monday too
Can human flesh do more?
Just take a broom yourself, my dear,
And sweep your own den floor,
You cannot find a handkerchief?
No shirt is in your box?
Confound it all—the ironing!
I quite forgot. Your socks,
No doubt are full of holes.
Well blame the curling rocks
With their in-turns and their out-turns,
And their many thrills and shocks.
What's that, you ask if supper's set,
You're hungry? Why, good heaven!
Have you forgotten quite, my dear,
The "Beef and Greens" at seven
With the ladies of the curling club—
I won't be home till eleven.
So please be good and feed the kids
And see them both in bed,
'Tis Saturday, so bath them first
And don't forget the bread,
And wash the dishes, tidy up,
And see the dog is fed.
There is no curling Sunday,
So I'll sleep all day instead.

Electric Cooking and Its Advantages

Economical - Clean - Fast - Convenient - Healthy

AN ELECTRIC RANGE IS ECONOMICAL BECAUSE
Food, of course, costs more than fuel. It is a well-known fact that shrinkage on foods in preparation runs from ten to twenty per cent. This percentage however, is greatly reduced when the food is cooked on an ELECTRIC RANGE, which means that your food budget is lessened for the simple reason that you buy less food. Furthermore, an ELECTRIC RANGE, properly operated, works for you at the surprisingly low cost of about one cent per meal per person.

AN ELECTRIC RANGE IS CLEAN BECAUSE
There is no soot or smoke to smear your kitchen, pots and pans and other cooking utensils. No tedious scouring. Your draperies retain their original beauty longer when you cook with ELECTRICITY, clean as sunlight. The ELECTRIC RANGE is easy to clean and equally as easy to keep clean.

AN ELECTRIC RANGE IS FAST BECAUSE
High speed surface elements give quick cooking heat, and the well insulated oven soon reaches baking temperature. Practically all the heat is conserved for cooking, very little being wasted. The ELECTRIC RANGE itself does not radiate heat.

AN ELECTRIC RANGE IS CONVENIENT BECAUSE
The antiquated pastime of "pot-watching" is totally eliminated forever. This tiresome task is efficiently and accurately handled by the Automatic Timer and Oven Heat Control without your supervision. You slip the food in the oven, set the controls, and forget it, knowing that the meal will be perfectly cooked on time, every time, at dinnertime. Modern recipes call for the application of specified temperatures for certain time intervals. The ELECTRIC RANGE does this for you to the degree and minute, which means that you experience a new freedom in cooking with positive assurance of better results. The ELECTRIC RANGE can be conveniently placed in your kitchen to save unnecessary steps, and will keep your kitchen cool because of its insulated oven, centering the heat inside, where it belongs.

AN ELECTRIC RANGE IS HEALTHY BECAUSE
The full flavor of foods cooked ELECTRICALLY is retained in the food, which also applies to the vitamins, mineral salts and juices so essential to a properly balanced meal, as the cooking is done with very little water thereby conserving these health-giving elements which are lost when ordinary methods are used.

Our prices on Electric Ranges, including installation in your home, are the lowest ever offered in Alberta. We invite you to consult our Local Manager for these prices and full details of our Convenient Time Payment Plan.

W. N. E. 1932

Highway From England To Turkey Planned

Governments Of Eight Nations Co-Operating In Enterprise

A 1,937-mile new highway is to be constructed extending from London to Constantinople, along which it will be possible to drive a motor car the entire distance unimpeded by the host of restrictions now imposed.

The Automobile Association of Great Britain has just published details of this enterprise. The motorist of the future setting out from London will reach Dover, 73 miles distant, and, crossing the channel, will resume his tour at Calais, 95 miles from London, then to Brussels (234 miles), Belgrade (1,342 miles), Cologne (369 miles), Budapest (1,092 miles), Sofia (1,587 miles), and then on to Constantinople, or, as it now must be called, Istanbul.

The governments of eight countries are co-operating in the scheme in order that touring motorists can pass along without customs checks. At each frontier post along the route there will be garages permitting repairs to be made and spare parts bought of every make of car.

Each bureau will be staffed with expert guides so that no motorist need lose his way. Moreover, there will be ample medical supplies and gasoline stations.

Each of the eight countries through which the route passes is vying with each other in its zest to make it the wonder road of the world.

Hundreds of miles of it are yet to be constructed. New and stronger bridges are being built, and in the case of ferry crossing, it is being modernized. The authorities in each country are being urged to make the whole road a uniform width of 30 feet.

Plans are being drawn up for extending the road through, for example, via Aleppo, Damascus, Baghdad and Teheran, Mesopotamia, Baghdad in Persia, across to Quetta and Lahore, and from there to Delhi and Calcutta.

An automobile association official said: "We are now negotiating for a 24-hour customs service in the eight countries concerned, and for customs departments to be established on the actual road at the various frontiers through which it passes."

When the international road is an accomplished fact it will be possible to set out from London and cover the entire 1,937 miles carrying only one document and paying only one deposit.

The government will accept letters from abroad in the old name until this fact becomes known throughout the world, but telegrams must be addressed to the new name, the French name Stamboul, which is incorrect.

Praise For the Newspaper

Makes Millions of Statements But Competitively Few Errors

Pratt Elliott, section for the Dominion Income Tax Department, says: "I disagree with the statement often made that 'nothing can be believed which is seen in a newspaper.' Our newspapers over a long period of time have established, I believe, a reputation for integrity and fair dealing. That oft-repeated adage capacity for taking pains may be applied to newspapers on past evidence of few errors in the millions of statements made. It is an infinite capacity for gathering and recording the facts in an incredibly short space of time, for the facts of today, in any part of the world, are news tomorrow in any other part of the world, but history the next day. Newspapers are not published or sold successfully as historians."

An Interesting Discovery

Petrified Apples Have Been Found By Farmer In Alberta

While fossilized palm leaves, figs and fig leaves have been discovered in southern Alberta, no fossil that is about 70,000,000 years old, this part of the world was a tropical land where the dinosaurs roamed, yet it was not until last month that petrified apples have been unearthed.

This discovery was made by a farmer digging a well in the Olds district, who unearthed petrified apples of a petrified branch of the ancient tree. The Calgary museum has been notified of the discovery and the well has been refilled with earth to await further excavation work by experts in this branch of research.

Too Sick for School

Mrs. Dow Says Dr. Williams' Pink Pills Restored Daughter to Health

"My daughter was run down in health, took weak spells and could not go to school," writes Mrs. Anna Dow, Port Daniel, West, Quebec.

"While visiting her aunt, a friend told her about a little girl in similar condition who had been completely restored to health by Dr. Williams' Pink Pills. My daughter has since been taking the Pills, and they have certainly made her stronger. She has lost that tired, sluggish feeling and has never missed one day's school since September. The Pills also gave her a good appetite; her nerves are better and she has more pep. I recommend Dr. Williams' Pink Pills to mothers of daughters with similar troubles."

Don't let anemia rob your growing daughter of health and vigor. Give her Dr. Williams' Pink Pills. They are no temporary relief. They build the condition by creating new blood which imparts health, vigor and vitality. Equally good for all run-down or nervous conditions. At your druggist's, 50c.

Fine Laboratory Plant Has Been Completed

Building At Ottawa To Be Opened This Spring

Theoretical science will be linked to the practical demands of commerce and industry by the new \$2,000,000 laboratory plant of the National Research Council, built and equipped by the Dominion Government, which will be put into operation and will be formally opened with appropriate ceremonies in the spring during the annual meeting in Ottawa of the Royal Society of Canada.

The dominating purpose of the National Research Council is to provide the necessary link between "pure science as taught in the universities and the scientific requirements of industry; in other words, to find a practical value for applied science. Although much has been accomplished in the past, the work of the council has been limited by lack of adequate facilities. That difficulty is now being removed.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. That I forgot them. The result was they became badly faded and sun-spotted."

"I was heartily until the happy thought struck me to dye them. I just dyed them a deeper green, and as I used Diamond Dyes they look gorgeous and new. I have never seen color dye to use than Diamond Dyes. They give the most beautiful colors when used either for tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J.E.T. Montreal.

The Ownership Of Trees

Classed As Real Estate Of Town Or Village

Who owns the trees that flourish on the streets or on the roads of a municipality? They are the real estate of the town or village or township, and as such may not be disposed of by the free will of a councilman, nor by the whole council except under the strict rules that are laid down for the disposition of other town property. Trees may improve the value of property along a street so that the owners would receive a distinct loss by their removal. The laws of England, of most of the States of the Union, and of Canada give protection to the owner in such a case. Of course, trees may be removed for an important public reason.

Chest Colds

best treated by stimulation and inhalation

Just rub on VICKS VapoRub. ACTS TWO WAYS AT ONCE

Extend Library Privileges

Public Library Commission For Saskatchewan May Be Established

Establishment of a public library commission for Saskatchewan, with the co-operation of the Carnegie Institute, is a development which may be expected in the province within the next few months.

Recently, representatives of the Carnegie Institute visited Regina and met members of the provincial government, and it was learned that consideration is now being given to a plan which would bring to the residents of all the rural sections a book-lending system not possible at present.

The plan, it is learned, provides for a substantial financial grant from the Carnegie Institute to the province, controlled by a commission in charge of the library extension work. This commission would work in co-operation with the open-shelf library and travelling library branches of the provincial public service and the system would permit the distribution of books into every rural section of the province.

Canadian Wheat Exports

Summary Of Movement Of Grain To United Kingdom Given In Report

Wheat exported during the month of January totalled 9,472,394 bushels, valued at \$5,817,682, compared with 9,098,862 in January, 1931, valued at \$6,430,682, according to a report issued by the Dominion Bureau of Statistics. The amount, sent to the United Kingdom was 2,289,268 bushels compared with 2,818,988 bushels in the corresponding month of last year.

In the six months ending January, 1932 the total wheat export was 104,150,452 bushels, compared with 128,272,729 in the same month of 1931.

Wheat flour export in January totalled 331,806 barrels valued at \$1,171,850, compared with 392,250 barrels at \$1,508,560 in January, 1931. The six months export was 2,965,807 barrels at \$9,976,107, compared with 3,961,694 at \$17,713,234 in the same period a year ago.

Scientists Are Busy

Scientists of nearly a score of nations are completing arrangements for the widest investigation ever made into the scientific and meteorological mysteries of the polar regions. The second "polar year" begins August 1 next, and a group of "weather men" in Toronto are toiling daily to conclude details of the great part Canada is to take in the new invasion of the top of the world.

Captain Kidd, the pirate, was sent out from England to capture pirates and turned pirate himself.

Creamed Soups

Creamed Celery, Onion, Tomato, Asparagus, many other creamed soups, vegetables, over 100 other delights. Full prices are included in our new FREE cook book, "The Great Provider." It describes how flavor is improved and how countless dishes can be made with it.

Great Scenic Highway

Upwards of 2,000 men are now engaged in the construction of a great scenic highway through the Canadian Rocky Mountains. Some ten camps have been established between Jasper, Alberta, and the Great Divide, and gangs of men are working out from them clearing the right-of-way. The road, which in a general way is part of the trans-Canada Highway scheme, will be the finest scenic highway in North America.

Burnside Notes.

There will be a dance in the Lone Pine Hall on Friday evening of this week. The "Gay Caballeros" will furnish the music.

Mr. and Mrs. Jim Shiels spent Sunday with Mr. and Mrs. A. E. Thompson.

Messrs. Jim McCulloch and George Shiels were in Lethbridge last week with a load of brome grass seed raised by the former.

Mr. Albert Arlenson is spending his holidays at his home in Calgary and taking in the teacher's convention.

RUGBY NOTES

Recently, friends and neighbors gathered at the hospitable home of Mr. and Mrs. James Hoesegood for a social time in honor of Mr. and Mrs. Bert Smith. Games, stunts and contests were enjoyed by everyone. After a delicious lunch the hostess, on behalf of those present, made a presentation of miscellaneous gifts to the guests of honor. Mr. and Mrs. Smith were the recipients of many useful and pretty gifts accompanied by hosts of good wishes.

Springside Notes.

Miss Ewing is visiting her parents during the Easter holidays.

Eugene LeClare spent the Easter recess at home.

Mr. and Mrs. Frank McDonald, and girls had dinner at the Brooke home on Sunday.

We hear George ran a front wheel off last week.

Our sympathy goes out to the Radford family upon the passing away of their father.

Harold has left the district and is now working in the Olds district.

S. S. News Reporter.

The Levi Evans auction sale, eight miles east of Didsbury has been postponed until Saturday, 2nd April.

BERGEN-NICHE VALLEY

Harry Burgess, the Bergen teacher and Miss Irene McConnell of, Eidsvold, have come to Calgary to attend teacher's meeting and also the Nazarene assembly.

Ira Gamble, and son William, will go to Calgary, April 1, as witnesses for the province. The province wants to establish and uphold the regulations of the Game Act regarding the killing of fawns and hunting with dogs. The Morley Indians are the defendants.

Bob Stevens was a visitor in the valley Sunday. Grace and the baby visited at home before moving onto the Steven's place north of town.

Constable Dobbin, of Olds, has been in the valley twice recently on business for the province.

Alec Brown is helping Ernest Olson for a few days.

Dick Metz and Edwin Clarke were in Didsbury on Wednesday. Dick was having dentist work done and attending the M.B.C. conference.

NOTICE

NOTICE is hereby given that the Municipal District of Mountain View No 310 will not pay any gopher bounty or supply any gopher poison during the year 1932.

A BRUSSO,
Sec.-Treas.

WEEKLY JOKE

Two college youths meeting the old darky caretaker in the dormitory thought to have some fun at his expense. They greeted him thus:

"Good morning, father Abraham; good morning, father Isaac."

To which he replied:

"Yo all is mistaken, gen'lmen. I am Saul and I is seeking my father's asses and lo, I has found 'dem!"

The JOYCASTERS

Will Present

"JUNE TIME"

Adults 30 cents., Children 10 cents.

Supper 10 cents.

Dance to follow, Gents 25 cents.

Nett proceeds devoted to charity.

You Are . . . Legally Liable

Once the person whose property you have damaged by automobile, has established your responsibility, you are legally liable for the costs.

Automobile Property Damage Insurance, however, will assume your liability and also pay any legal expenses involved.

A necessary form of protection that everyone can afford to have, and none can afford to be without. Ask us about it.

C. E. REIBER DIDSBURY, ALBERTA

Figures of United States motor cars entering New Brunswick in 1931, issued by the provincial bureau of information and tourist travel, show an 8 per cent. gain over 1930. The new record for 1931 is 28,553 as compared with the former record of 26,608 for 1930.

Approximately \$11,000,000 was saved in Canada last year in the cost of construction dwellings and other buildings in 45 cities owing to reduced cost of building materials. Aggregate value in these cities of building permits was \$110,971,410.

The aid of Hon. G. Howard Ferguson, Canadian High Commissioner in London and of Lord Beaverbrook will be sought by the Maritime Provinces representatives who left aboard S.S. Montcalm from Halifax recently, in an effort to secure the lifting of the British Government's embargo on Canadian potatoes.
